Studying Information Science.

21 years old.

startup business

Hobby : backpacker

Before : Humanitarian Aid etc

About my startup business

In Japan, rural areas are facing a severe labor shortage.

Even profitable businesses are closing, not due to financial problems, but simply because there are no workers.

This affects not only factories but also white-collar jobs like office administration and data management.

About my startup business

AI-powered tools Data entry

- Document processing
- Scheduling

These tools allow businesses to allocate human resources to tasks that require creativity and strategic thinking.

Our goal is to create a sustainable future by supporting businesses and communities in adapting to this challenge.

Food: The Universal Bridge Connecting Us All

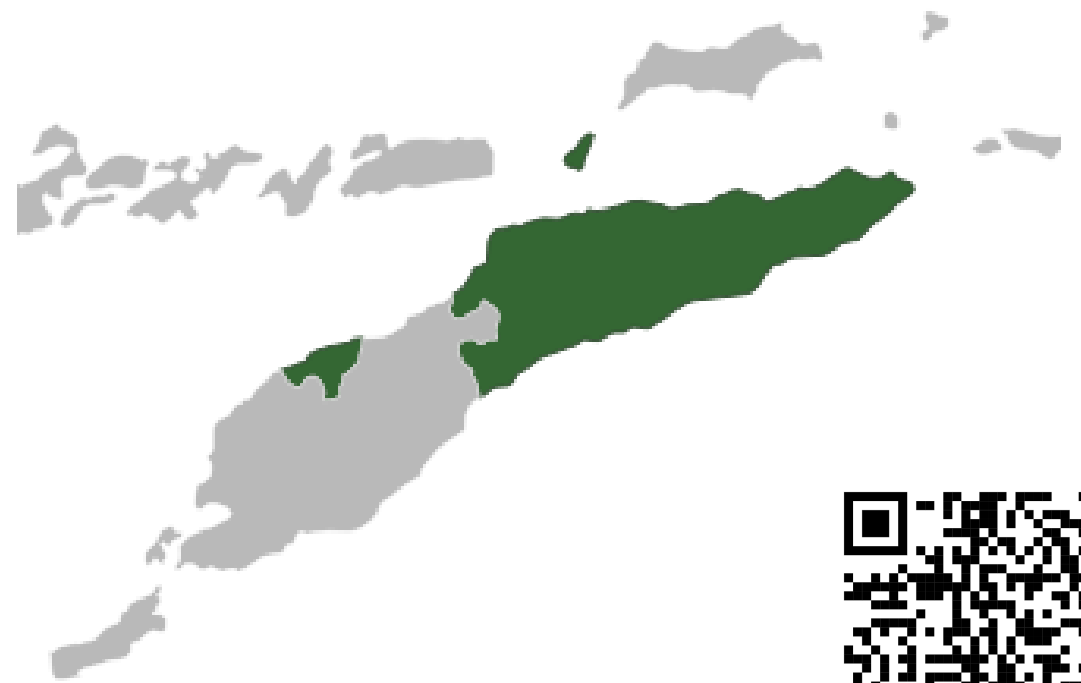

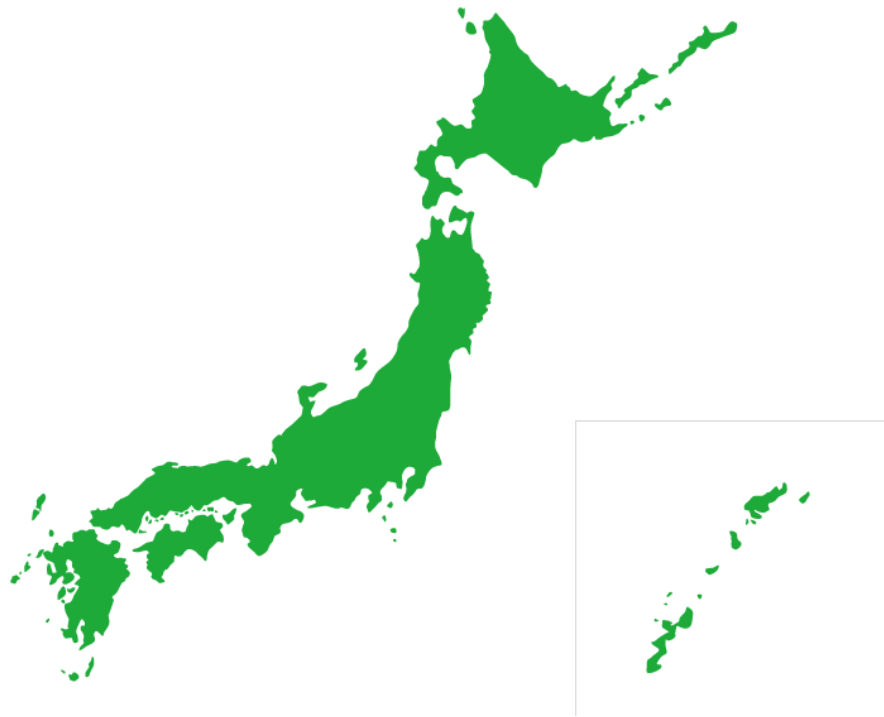

Food 食

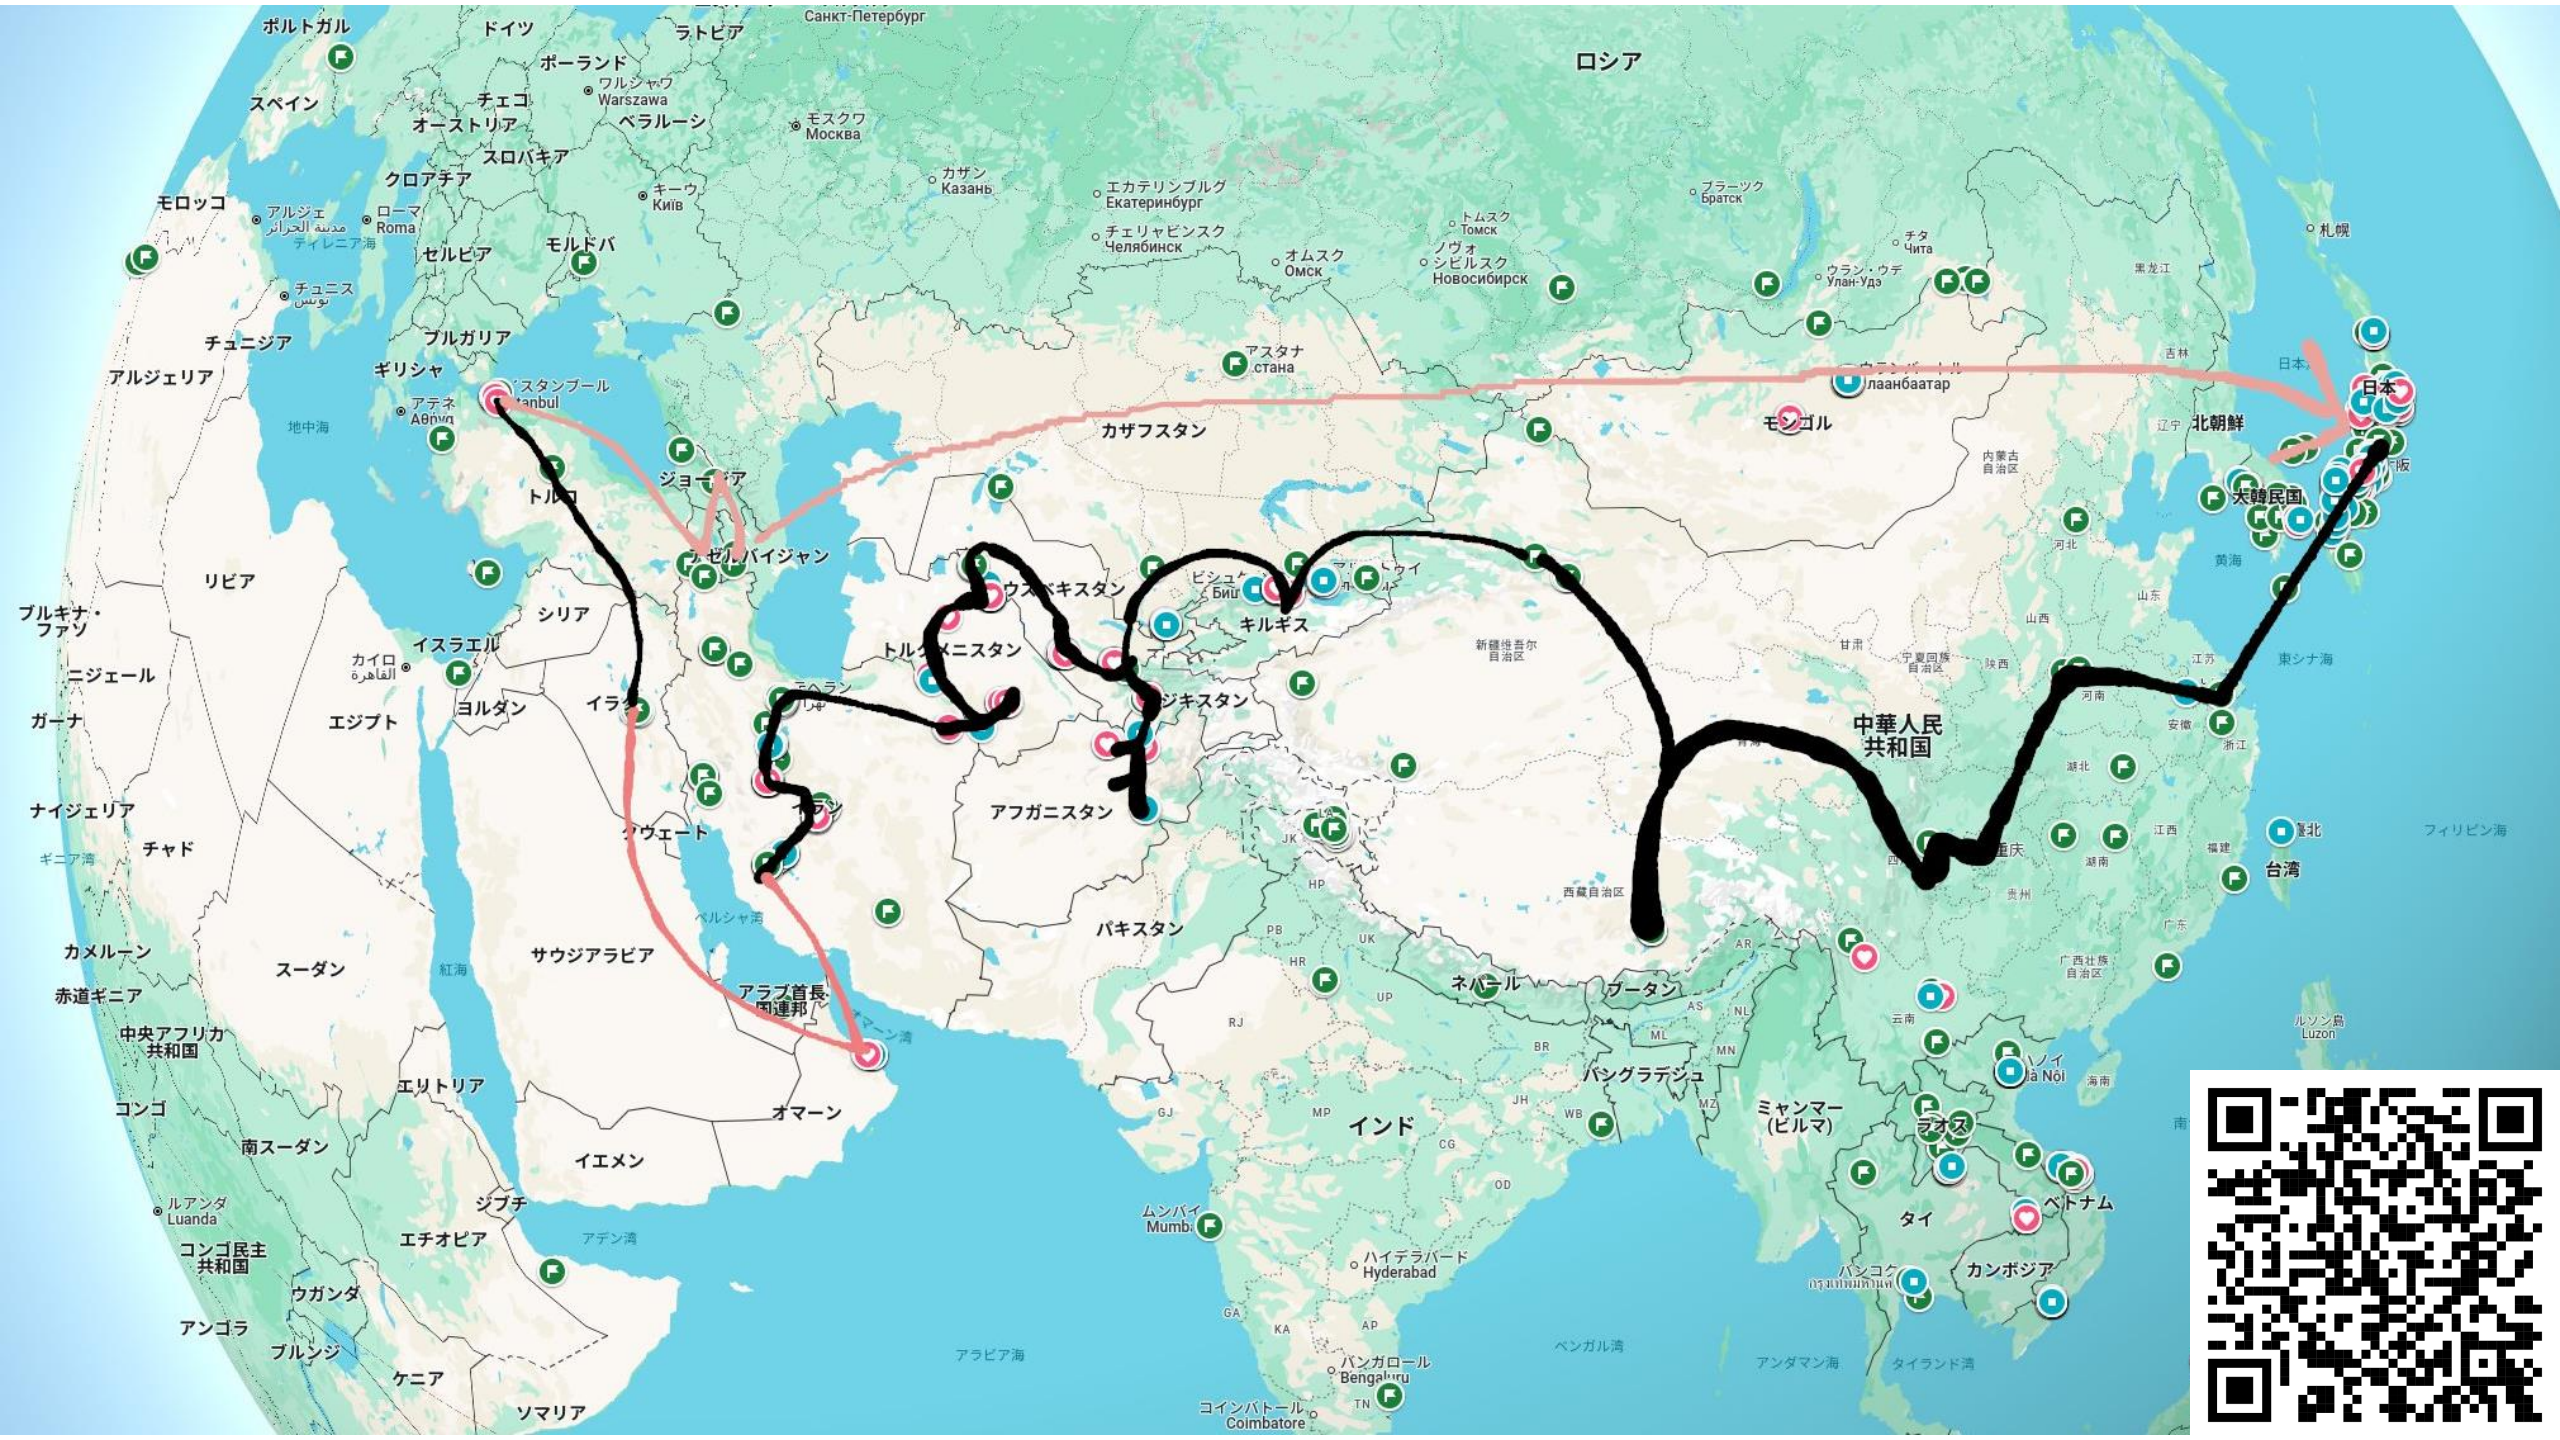

Food is something we all need, but it is also something that connects us.

It connects people, cultures, and countries.

Japan and Timor Leste: Food Traditions

• Similarities

- Rice as a staple
- Seafood dishes
- Fermented foods

• Differences

- Eating sounds in Japan
- Focus on conversation in Timor Leste

Food Connects Us All

Food carries stories, traditions, and connections

We are all part of the same world

Through food, we can understand and appreciate each other

Thank you for
